

DEFENSE PRODUCTION ACT INVESTMENTS

The **Defense Production Act (DPA) Title III** program targets investments that create, maintain, protect, expand, or restore critical domestic industrial base capabilities. DPA Title III has three broad focus areas: **sustaining critical production, commercializing research and development investments**, and **scaling emerging technologies**. DoD's response to Executive Order 14017, *America's Supply Chains*, identified five defense-critical sectors, around which the Department is focusing investments.
